DRILL RIGS

JACRO 200 – Tandem Trailer Mounted Drill Rig

- Trailer Mounted for efficient and lower cost mobilisation
- Low fuel usage, 25L Per day.
- Simple and efficient set up for quick operations (20-30m daily)
- HQ3 capable to 30m
- PQ3 capable to 15m
- Mud rotary, Auger capable
- SPTs and Insitu Testing
- Helicopter, barge and crane moveable.
- Low overhead clearance

Applications

- Restricted or remote area access with little infrastructure.
- Low footprint requirements, two assets total.
- Geotechnical drilling
- Civil/construction drilling
- Shallow resource definition
- Installations and monitoring bores

Massenza MI3 – Track Mounted Drill Rig (New Fleet Addition)

- Brand new drill rig being added to fleet, increasing rig availability.
- Respected and renowned drill rig producer ensuring reliability
- Track mounted and trailer transported for remote access
- HQ3 capable to 210m
- PO3 capable to 100m
- Auger, air-core and mud rotary capable
- SPTs and Insitu testing
- Teir 1 Compliant

Applications

- Restricted or remote area access with little to NO infrastructure
- Low footprint requirements, two assets total.
- Geotechnical drilling
- Civil/construction drilling
- Shallow and medium depth resource definition
- Installations and monitoring bores

REMOTE SUPPORT PLATFORM

ISUZU NPS REMOTE OPERATIONS SUPPORT TRUCK

Our Isuzu NPS 300 is the backbone of our remote operations capability. Specifically built by Mirza and Conor to be extremely offroad capable, even whilst pulling a drill rig behind it, it allows CM Drilling to go where others can't or won't go. Equipped to support long term projects in remote locations, it reduces the need for client infrastructure or track building, reducing cost. Regularly serviced and cared for like our own, it's always in top notch condition for the next job.

- 4x4 Offroad capable
- Super Single offroad tyres
- "All-in-One" Support solution
- On-board super duty compressor
- Self-Recovery Equipment
- Onboard 12v system for crew support
- Hard mounted Starlink for remote comms with independent battery system

OWNER-OPERATED DRILLING TEAM

25 YEARS COMBINED DRILLING EXPERIENCE

Our dedicated crew is small but strong, leaning into its years of drilling experience and military service to provide an outstanding product that you can rely upon.

MIRZA MUSANOVIC Owner/Operator

The “brains” of the business, Mirza is somewhat of a big hitter in the drilling industry, with over 20 years under his belt. Well respected and an institution of knowledge, he brings the expertise needed to keep things moving forward and provides clients with the confidence needed to proceed in difficult projects.

- 20+ years of drilling experience
- Multi-discipline drilling background (RC, Diamond, Sonic, Etc)
- S26 Statutory Supervisor
- Class 1 Water Well License
- ADIA Assessor
- Exploration and Geotechnical Expertise
- Remote operations, planning and mobilisation
- Safety Focused operations

CONOR SCHOFIELD Owner/Operator

The “brawn” of the business, Conor is an Army veteran of 7 years with 5 years in the drilling industry. Whilst newer to the industry he has had the benefit of 5 years mentorship under Mirza. A blending of military service and drilling experiences give him a unique skill set that clients can rely upon to see the job done safely and on time.

- 5+ Years of drilling Experience
- Diamond, Sonic and Air Hammer
- Exploration and Geotechnical Experience
- Ex-Army Armoured Crewman of 7 years
- Remote operations in extreme conditions
- Mechanical and recovery experience
- Safety Focused Operations
